Made expressly for Family and Plantation use; making in a superior manner the "Double Lock Stitch," the strongest, most elastic and durable made by any machine. The best indiges pronounce the Moore's Patent to be the most superior, and and DURABLE machine now before the public, and the most desirable for Family use; being reliable and accurate on all kinds of goods; using from two ordinary spools without rewinding, any size and kind of thread from No. 8 to 200, and sewing with Importers of and Wholesale and Retail Dealers in

families, and sold at about half the price asked for nachines of less practical value. The proprietor calculating on large sales, and wishing to bring so valuable an article within the

DEAR Sin: - I have had one of Moore's Patent Sewing Machines in use in my family for some time, and have no Bestiancy in saving, that I consider it in every particular equal, if not superior to any high priced machine is market. My wife is much pleased with it, and can do every variety of family sewing upon it without any difficulty. It does not get out of order, and I cheerfully recommend it to those designing to purchase, as a valuable and prac-

Machine, and caudidly assert that I consider only really practical one. I believe it to be all that is claimed for it—simple, strong and durable, and for a family machine, fully equal if not better than any other Sewing Machine in market, regardless of price.—II. II.
